

Job Title: Intern Software QA

Location: Bangalore

About Reltio:

At Reltio®, we believe data should fuel business success. Reltio's AI-powered data unification and management capabilities—encompassing entity resolution, multi-domain master data management (MDM), and data products—transform siloed data from disparate sources into unified, trusted, and interoperable data. The Reltio Connected Data Platform™ delivers interoperable data where and when it's needed, empowering data and analytics leaders with unparalleled business responsiveness. Leading enterprise brands—across multiple industries around the globe—rely on our award-winning data unification and cloud-native MDM capabilities to improve efficiency, manage risk and drive growth.

At Reltio, our values guide everything we do. With an unyielding commitment to prioritizing our “Customer First”, we strive to ensure their success. We embrace our differences and are “Better Together” as One Reltio. We are always looking to “Simplify and Share” our knowledge when we collaborate to remove obstacles for each other. We hold ourselves accountable for our actions and outcomes and strive for excellence. We “Own It”. Every day, we innovate and evolve, so that today is “Always Better Than Yesterday”. If you share and embody these values, we invite you to join our team at Reltio and contribute to our mission of excellence.

Reltio has earned numerous awards and top rankings for our technology, our culture and our people. Reltio was founded on a distributed workforce and offers flexible work arrangements to help our people manage their personal and professional lives. If you're ready to work on unrivaled technology where your desire to be part of a collaborative team is met with a laser-focused mission to enable digital transformation with connected data, let's talk!

Job Summary:

We are seeking a motivated and detail-oriented QE Automation Intern to join our Quality Engineering team. As an intern, you will gain hands-on experience in automating test cases, enhancing test frameworks, and ensuring the quality of our cutting-edge data management solutions. This internship offers a unique opportunity to work with advanced technologies and learn from experienced professionals in a dynamic and innovative environment.

Job Duties and Responsibilities:

- Assist in designing, developing, and maintaining automated test scripts for various product features.
- Collaborate with the QE team to identify test cases suitable for automation.
- Execute automated test cases, analyze results, and report defects.
- Enhance and optimize existing test automation frameworks.
- Participate in code reviews and contribute to improving coding standards and best practices.
- Work closely with development and product teams to understand requirements and ensure comprehensive test coverage.
- Document test plans, test cases, and test results clearly and accurately.

**Skills You Must Have:**

- Currently pursuing a Bachelor's or Master's degree in Computer Science, Software Engineering, or a related field.
- Basic understanding of software testing principles and methodologies.
- Familiarity with programming languages such as Java, Python, or similar.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Eagerness to learn and adapt in a fast-paced environment.
- Attention to detail and a proactive attitude towards identifying and resolving issues.

Skills That Are Nice to Have:

- Knowledge of automation tools and frameworks (e.g., Selenium, JUnit, TestNG) is a plus.

Benefits of interning @Reltio

- Gain practical experience in test automation and quality engineering.
- Opportunity to work with cutting-edge technologies and tools.
- Mentorship from experienced professionals in the field.
- Collaborative and inclusive work environment.
- Potential for future career opportunities at Reltio.
